Sunday School—9:15 am in the Sanctuary

Sunday morning

Sunday Evening

6:00 pm

Foundations Under Fire

While exploring the book of Genesis, participants will understand why the book of Genesis is so foundational to the rest of the Bible. Steve explains how the doctrines in Genesis are being undermined and how evolution is affecting the culture.

Fossils—Noah's Ark—Dinosaurs

Steve's huge fossil collection is used to illustrate the truth of a global flood. This powerpoint message answers how the earth and fossils are dated, ape-men, caves and much more! All ages need to hear this because scientists, teachers and children are believing wrong information.

About Our Speaker

Rev. Steve Levinson is a graduate of Liberty University and has pastored adults and youth and worked with "at risk" youth in over 50 schools. While the messages are very serious, Steve uses humor and interaction to keep the attention of his audiences. You can also catch him on CSN radio every weekend for his "Creation Discoveries", a one-minute nugget of truth heard on over 275 stations throughout the U.S. For more information on Steve's ministry check out his website at: www.genesisseminars.org.
